Caption: *The Future of Energy* documents the nation's clean energy movement.

'Ding' film offers hope for renewable energy future

The documentary film *The Future of Energy: Lateral Power to the People* continues the fifth annual "Ding" Darling Wednesday Film Series on April 12, at 1 p.m. in the "Ding" Darling Visitor & Education Center auditorium.

Featuring some of America's top energy specialists and ecological visionaries, *The Future of Energy* presents a clear path towards a new energy paradigm while informing how everyone can participate in creating a 100 percent renewable energy solution to the ecological crisis.

The 64-minute film captures the clean energy movement across the U.S. It demonstrates that technology and funding are available to supply all our energy needs cheaply and safely.

"Ding" Darling Wildlife Society-Friends of the Refuge hosts the free eight-film, biweekly series with sponsorship from Sanibel-Captiva Beach Resorts. Seating is free, but limited and on a first-come basis.

ABOUT DDWS

As a non-profit 501(c)3 organization, DDWS works to support J.N. "Ding" Darling National Wildlife Refuge's mission of conservation, wildlife and habitat protection, research, and public education through charitable donations and Refuge Nature Shop proceeds. To support DDWS and the refuge with a tax-deductible gift, visit dingdarlingsociety.org or contact Birgie Miller at 239-292-0566 or director@dingdarlingsociety.org.
