

Virtual Scavenger Hunt: Bailey Tract

J.N. "DING" DARLING NWR

How many acres is the Bailey Tract? _____ acres

How many Black-Necked
Stilts do you see? _____

And why do you think
their legs are so long?

A _____ species is an
animal or plant on which other
species in an ecosystem depend.

Like the gopher
tortoise!

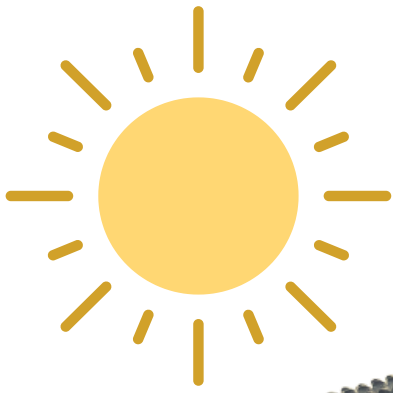

**Harassing wildlife means to bother it and change its behavior.
Circle what actions count as harassment of wildlife:**

Trying to
touch wildlife

Watching wildlife
with binoculars

Feeding
wildlife

Taking photos
of wildlife

How far away should you stay from an alligator? _____ feet

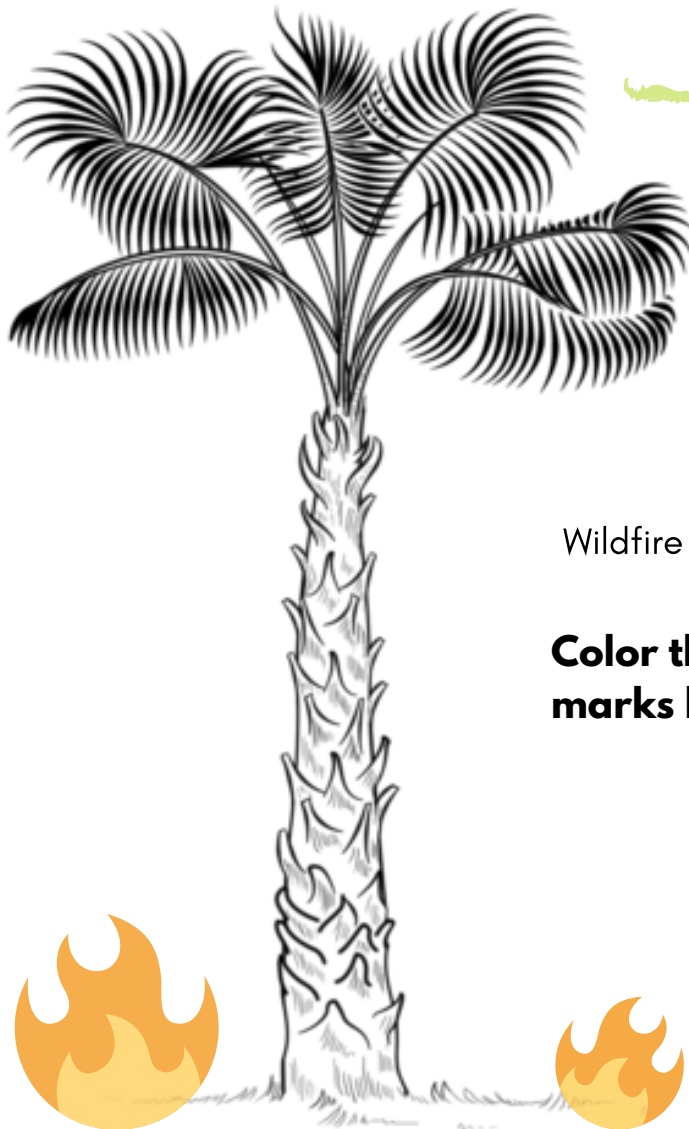

Endotherms (warm-blooded) make some of their own heat.

Ectotherms (cold-blooded) need heat from their environment.

We learned that alligators and reptiles are cold-blooded.

Do you think humans are warm- or cold-blooded? _____

Fires can keep an ecosystem healthy and people safe.

What is it called when we use fire to help an ecosystem?
Circle the correct term below:

Wildfire

Prescribed burn

Bonfire

Color the palm tree with burn marks like you saw in the video!
