

Investigating Plants on Indigo Trail

J.N. "DING" DARLING NWR

Brush up your biological illustration!

Use this space to draw one of the plants we learned about in this video. Look up some photos if you need to! Try to draw it like a scientist would:

What shape are the leaves? Does it have berries? How many petals on the flowers?

Pick any one of these plants!

Gumbo Limbo - Wild Coffee - Strangler Fig
Cabbage Palm - Serpent Fern
